

## **Information Technology Department Mission**

Worthington school district will transform education and educational practices through information technologies.

### **B. Mission**

To incorporate technology into the instructional program and district operation to:

- facilitate engaged learning of all students
- enhance student efficiency and creativity
- develop student technology literacy and understanding to be ethical, productive, successful members of society
- facilitate communication between students, staff, parents and the world community
- extend the boundaries of the learning environment
- enhance information-based district decision-making

Educational Technology Plan for Worthington City SD School Years: 2006-09  
Status: eTech Ohio Certified 4 Last Updated: Feb 21, 2006
