

# Worthingway MS

## BUILDING ACTION PLAN 2022-23

### 21-22 POINTS OF CELEBRATION

- Worthingway MS has consistently proven to fill gaps since the COVID-19 pandemic as seen in our OST math achievement data.
- The 8th Grade Science State Test jumped to 71.2% in Achievement.
- Worthingway MS met or exceeded predicated levels of growth on all of the State Tests. In addition, we were above expected growth levels in 7th Grade Math, 8th Grade Math, and 8th Grade Science.

## FOUNDATIONAL SKILLS & KNOWLEDGE

**Goal:** We will prepare students to be successful in an ever changing economy by equipping students with foundational knowledge and skills that support lifelong learning.

### Strategies:

#### Reading

Expand capacity to identify and support students who are below grade level due to foundational reading skills through an expansion of evidence-based instructional strategies and implementation of tier 2 interventions, remediation strategies, and curriculum.

#### Writing

Implement instruction that provides all students with opportunities to make their thinking visible through writing in all content areas.

#### Mathematics

Ensure instructional alignment to Ohio content and practice standards as well as district curriculum maps.

# WELL ROUNDED CONTENT

**Goal:** We will expose students to a broad range of subjects and disciplines beyond foundational knowledge and skills to allow students to explore and identify their passions and aspirations, as well as discover connections and relationships among ideas and concepts.

**Strategies:**

Use informational text in all content areas so students read to learn and extrapolate information that extends learning.

## LEADERSHIP & REASONING

**Goal:** Future success will not just depend on academic content knowledge. It will require students to exhibit leadership skills. We will provide leadership opportunities, including among other things, learning from mistakes and improving for the future, listening to others and working to achieve a common goal and giving and receiving feedback. Reasoning skills are important too. Reasoning means that students know how to draw on multiple disciplines to synthesize information, develop creative solutions and generate new ideas. We aim to teach students specific skills such as critical thinking, problem-solving, design and computational thinking, information evaluation and data analytics.

**Strategies:**

All teachers will implement interactive learning structures and thinking routines in all content areas.

## CITIZEN & SELF

**Goal:** Research shows that being part of a community improves life satisfaction and health. We will equip students with an understanding of the importance of social interaction and personal feelings. This includes competencies like self-awareness, self-management, social awareness, collaboration, empathy, relationship skills, and responsible decision making to become resilient and persistent in life.

**Strategies:**

Teachers will be trained in Culturally Responsive Teaching and Learning.
