

Bluffsview ES

BUILDING ACTION PLAN 2022-23

21-22 POINTS OF CELEBRATION

- Bluffsview received 5 out of 5 stars in the Gap Closing category on the 21-22 Ohio State Report Card, showing our strongest growth in literacy with students with disabilities.
- In Math, 95.4% of students in 4th grade scored at the proficient level or higher on the Ohio State Test, up from 73.6% in the 20-21 school year.
- Performance index scores that measure overall achievement levels rose back to pre-pandemic levels from 87.6 points during 2020 back to 102.7 points.
- Over 80% of our students scored Bluffsview highly in rigorous expectations, school safety and teacher-student relationships on the Panorama survey.

FOUNDATIONAL SKILLS & KNOWLEDGE

Goal: We will prepare students to be successful in an ever changing economy by equipping students with foundational knowledge and skills that support lifelong learning.

Strategies:

Reading

Explicitly and systematically teach the generalization of phonics skills through the use of decodable texts.

Writing

Implement instruction that provides all students with opportunities to make their thinking visible through writing in all content areas.

Mathematics

Engage all students in appropriately aligned DOK activities and assignments to foster critical thinking and problem solving skills (MP1, MP2, MP4, MP7, & MP8).

WELL ROUNDED CONTENT

Goal: We will expose students to a broad range of subjects and disciplines beyond foundational knowledge and skills to allow students to explore and identify their passions and aspirations, as well as discover connections and relationships among ideas and concepts.

Strategies:

Anchor experiences which fit within the vertical curriculum for each grade level.
Examples: Community level service project, service learning, project-based learning, and related arts.

LEADERSHIP & REASONING

Goal: Future success will not just depend on academic content knowledge. It will require students to exhibit leadership skills. We will provide leadership opportunities, including among other things, learning from mistakes and improving for the future, listening to others and working to achieve a common goal and giving and receiving feedback. Reasoning skills are important too. Reasoning means that students know how to draw on multiple disciplines to synthesize information, develop creative solutions and generate new ideas. We aim to teach students specific skills such as critical thinking, problem-solving, design and computational thinking, information evaluation and data analytics.

Strategies:

All teachers will implement interactive learning structures and thinking routines in all content areas.

CITIZEN & SELF

Goal: Research shows that being part of a community improves life satisfaction and health. We will equip students with an understanding of the importance of social interaction and personal feelings. This includes competencies like self-awareness, self-management, social awareness, collaboration, empathy, relationship skills, and responsible decision making to become resilient and persistent in life.

Strategies:

Teachers will be trained in Culturally Responsive Teaching and Learning and incorporate research based strategies through Responsive Classroom practices.
