

Interactive Science (Savvas): Grades 1-5 Science

Interactive Science meets the way teachers teach, and the way students learn today, while providing project-based and all-digital options for each stage of instruction. Transitional support for Ohio educators ensures a smooth transition toward the expectations of the Next Generation Science Standards and complete coverage of the Ohio Revised Science Education Standards and Model Curriculum. This helps ensure a change of practice that incorporates more hands-on, more depth of content, and more performance-based expectations. The core scope and sequence meets not only the Ohio Revised Science Education Standards and Model Curriculum, but also the Next Generation Science Standards grade level expectations with no extraneous content.

Inspire Science (McGraw Hill): Grades 6-8 Science

Inspire Science for grades 6–8 is designed to spark middle school students' interest and empower them to ask more questions, think more critically, and generate innovative ideas. With the proven 5E instructional framework, Inspire Science provides an in-depth, collaborative, evidence-based, and project-based learning experience to place middle school science students on the path to career and college readiness. Students will uncover preconceptions with formative assessment science probes. Cross-curricular connections are embedded throughout with quick and easy references to specific literacy, math, and engineering skills being reinforced through the science investigations.

Campbell Biology in Focus (Savvas): AP Biology

Maintaining the Campbell standards of accuracy, clarity, and pedagogical innovation, the new 3rd Edition helps students make connections across chapters, interpret real data, and synthesize knowledge. The latest edition integrates new scientific findings throughout and offers more than 450 videos and animations in Mastering Biology, which is embedded in the new Pearson eText. This program fully covers the College Board's AP Biology Curriculum Framework and is supported by a wealth of teacher and student materials.

Western Civilization (Cengage): AP European History

Jackson Spielvogel's *Western Civilization* has helped over 1 million students learn about the present by exploring the past. Updated to reflect current scholarship, the 11th edition (2021) delivers an engaging narrative that weaves the political, economic, social, religious, intellectual, cultural and military aspects of history into a gripping story that is as memorable as it is instructive. It includes primary source documents, practice AP questions, and a plethora of additional materials to support student achievement. This resource also meets the standards of the College Board's AP European History Curriculum Framework.
