***REMNIDER FOR ALL WKHS PARENTS:

When to Keep Your Child Home

Your child is too ill to go to school if he or she has any of the following symptoms:

- Temperature above 100 F by mouth (see below)
- Vomiting or diarrhea within the past 24 hours (see below)
- Shortness of breath or has increase in wheezing during normal activity
- Has a cough that interrupts normal activity
- Pain from an earache, headache, sore throat or recent injury
- Has yellow or green drainage from nose or eye(s)
- Rash over body or localized to one area of the body
- Fatigue and needs bed rest (common with flu-like symptoms)

Students who are sent home with a fever 100 degrees or higher must remain at home until the student is fever free for 24 hours without the use of medication. In most cases this means that students will miss the following school day. Please understand that fevers can reoccur within a 24 hour time period and this policy is in the best interest for all students.

Students who are sent home due to vomiting or diarrhea must also stay home for 24 hours to ensure that these symptoms are gone before returning to school.

Please keep your student home when they are sick. It is in the best interest of your student to stay home when they are ill and helps us protect a healthy environment at school for staff and other students.
